# Fujitsu addresses education situations like...

Education leaders want to enhance students' learning and life skills to better prepare them to be productive professionals in the 21<sup>st</sup> century

# Fujitsu addresses education situations like...

Students want to collaborate on projects as they take notes, share information and make changes on the fly

# 21<sup>st</sup> century challenges facing today's educational leaders

## Migrate from textbooks and lectures to an interconnected, student-driven learning environment

- Empower students and teachers to easily share notes, graphs, calculations, sketches, etc.
- Allow students to study and research from virtually unlimited sources

## Create a diverse one-on-one learning environment

- Enable students and faculty to collaborate using new ways of studying, analyzing and investigating
- Help teachers provide assistance to individual students

## Provide students with valuable experience

- Equip students with skills necessary for 21<sup>st</sup> century professions
- Give students real-world experience working in an IT environment

# Educational organizations' top mobility requirements

To facilitate collaboration among students and teachers

Always connected

Professional services

To assist schools in creating the best possible mobile environment

To enhance schools' IT infrastructure development

Integration with schools' IT infrastructure

Human interface technologies

To provide flexibility and ease of use for multiple educational disciplines

To enable students to work all day on a single charge

Long battery life

Reliability

To withstand the rigors of tough environments

# Fujitsu delivers on all fronts – putting students and teachers first

## Capability

### Always connected

### Integration with school's IT infrastructure

### Long battery life

## Key Fujitsu features

- Mobile systems support latest wireless and wired network technologies

- Deployment programs to train teachers and staff

- Battery life that extends to an entire school day
- Optional modular bay design for second battery option
- Hot swappable battery options
- Implementation of battery swap programs

## Benefits

- Students and teachers are able to share information and collaborate at any time

- Seamless integration
- Minimizes impact on students and teachers

- Ensures all-day operation without having to recharge batteries

# Fujitsu delivers on all fronts – putting students and teachers first

## Capability

### Professional services

### Human interface technologies

### Reliability

## Key Fujitsu features

- Professional services for system architecture and deployment
- Training and support for self-maintenance programs

- Range of screen sizes
- Pen and touch technologies
- Keyboard options

- Product goes through shock, vibration, temperature, altitude, humidity and dust tests
- Spill-resistant keyboards

## Benefits

- End-to-end support for school's mobile solution

- Helps students create and share projects, notes, exercises, etc.

- Protects against damage from rough handling or accidental spills
- Results in fewer repairs and lower support costs

# The Fujitsu difference

**Reliability** Built-in reliability and quality

**Expertise** Deep experience and proven success in academic environments

**End-to-end solution** Partners with schools to design, deploy and support their total mobile environment

**ROI** Helps schools run more efficiently and cost-effectively

# Comprehensive Fujitsu solutions

Fujitsu offers industry-leading mobile computing systems that withstand the tough treatment encountered in educational environments
